

Good News! ECLIPSE® Subscriptions are now automated!

With over 700 calls moving through our phone system daily during our first week of operation, we're happy to report that we've managed to keep hold times to an average of about one minute. Please help us reduce this even further!

If you have not yet placed a credit card on file with us, save time by filling out the form below and sending it back to us ASAP. Remember, in order to provide you with continued service, we must manually setup your credit card information in the new system. *Once it is initially added, you will be able to update your own information. We no longer have an accounting department. With our new system, you can manage your own account online. We won't send you bills. And we can't handle your checks because sales tax is entirely automated from the moment your card is charged to when the sales tax is actually paid in various states.*
