New York Workers Compensation

“Phase 3 Mandatory Provider Submission of the CMS-1500 form” begins July 1st. Carisk is our designated XML submission partner (we’ve worked with Carisk — formerly iHCFA — since 2009). And it’s already the last minute! Contact the Help Desk if you need to sign up! You can review our webinar from this past Thursday [by clicking here](#).

ECLIPSE is now DPI Aware.

When you adjust the DPI scaling level for monitors [in Windows], you’re changing the size of text, apps and other items to appear larger or smaller. A higher DPI level makes everything appear larger, and a lower DPI level makes everything appear smaller. (The default DPI level is 100% -- 96 DPI). ECLIPSE will now react to these changes & scale accordingly. You can download an update now that has these capabilities.

Mobile Check-In App

The [mobile app](#) is free, can reduce your documentation time, and is fast & easy for patients. For more extensive information about ECLIPSE & the mobile app, [click here](#) to read the Knowledge Base article & [here for videos](#).

Text Messaging

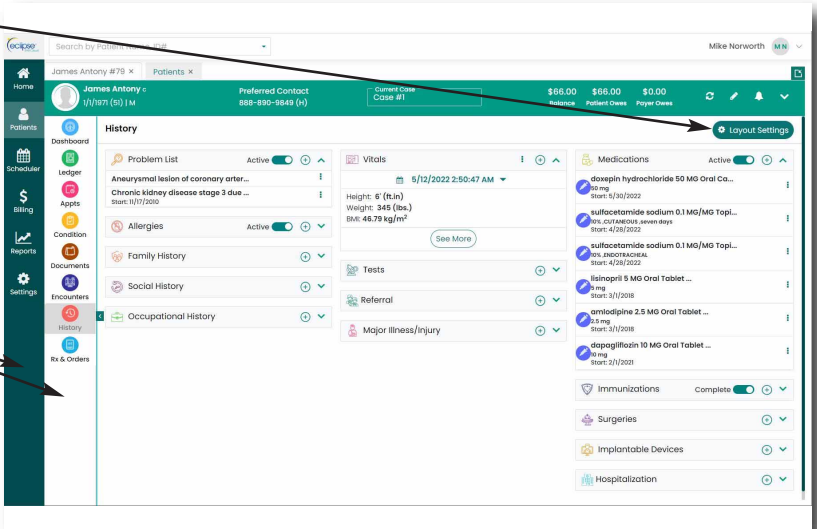

Our delivery rate for SMS text messages is > 99%. More of you have been gravitating to the new \$49.95/month paid text messaging option as carriers block more & more email-to-text. [Click here for details](#) if your messages aren’t delivered.

ECLIPSE EHR Cloud First Look

We expect to release **ECLIPSE EHR Cloud** later in 2022. You can see a quick 5 minute overview [by clicking here](#) & we suggest you zoom the video to fill your screen. [Click here for the FAQ](#):
