December 12, 2023

Offices are contacting us daily since the beginning of the month insisting they need to switch to **ECLIPSE EHR Cloud** “ASAP.” However, “ASAP” is more dependent on you than us:

- Do you need a data conversion? If so, do you have lots of documents stored in ECLIPSE currently?
- Do you need training? Or do you think you can wing it with existing videos & the Help Desk?

The above factors will have a major impact on whether we can fit you in “ASAP!”

**** End-Of-Year Procedures. ****

Before you begin the new year, if you haven’t already handled tasks such as resetting your deductibles, [click here](#) to review end-of-year procedures you should consider before you begin entering services & payments in 2024.

Patient Intake Form

Patients can already self-schedule from your website with **ECLIPSE EHR Cloud (EEC)**. Now, you can review the simplicity of the online intake form patients are already using with **EEC**. View a brief video [by clicking here](#).

Facebook Group

To join this private group, [click here](#) & then click **Join Group** on the Facebook page. This group is an excellent news resource.

With EEC’s **In-Touch**, you can interact directly with any patient via text or email at the patient or system level. The interfaces are simple to use & integrated with the patient’s folder. *Automatic notifications alert you to incoming email or text messages from patients.*

Sincerely,

Karen Walters, D.C.
